

Quantitative Mathematics – I - 02.09.2023 – 10.02.2024

The Certificate Course in Quantitative Mathematics-I was successfully conducted during the academic year 2022-2023 under the Department of Science. The course, led by Dr. A. Mohanapriya, was designed for first- and second-year B.Sc. students, focusing on fundamental mathematical concepts such as number systems, HCF and LCM, simplification, and quantitative reasoning. The course featured interactive lectures and practical exercises, engaging 58 students who actively participated and demonstrated excellent performance. Assessments and feedback mechanisms were implemented to evaluate learning outcomes. Based on feedback, plans for enhanced course material, interactive sessions, and guest lectures were proposed. The initiative concluded with participants receiving certificates for successfully meeting the course requirements.
